

Abfräsflix

Electrical table stripping machine for enamelled copper wires

Description:

Abfräsflix is an electrical table stripping machine for enamelled wires.

The wire is inserted into the rotating blade head up to the length stop, while 5 blades mill off the insulating enamel. The stripping lengths and the milling diameter are continuously adjustable. The standard version of the Abfräsflix is supplied with spring steel blades. For particularly heavy-duty-use, carbide knives can also be provided.

Optional:

A flexible shaft is available as a special accessory for workpieces which are difficult to handle.

Technical specifications:

- Round wires Ø: 0,8 - 5,0 mm or 4,0 – 7,0 mm
- Stripping length: till 45 mm
..... (without length stop up to 75 mm und max. 3 mm Ø)
- Power: 230V / 50Hz
- Rotational speed: 2650 min1
- Width: 110 mm
- Length: 230 mm
- Hight: 140 mm
- Weight: 4,5 kg
